Appendix I. Grant Scoring Rubric

\*\* For completion by internal reviewers only.

Applicant O	rganization:	<u> </u>
-------------	--------------	----------

Criteria	Score	Total Possible Points
The applying organization has never been awarded a Healthy Places grant before.  Organizations that have been previously awarded funding will be considered only after first-time grantees have been assessed.		5
The proposed project aims to improve health through a built environment change.  The proposed project clearly changes or improves the physical makeup of the neighborhood or environment. It will improve the community's health.		25
The application is complete. It fully explains:  - How the project serves an overburdened population.  - A connection to the Community Health Improvement Plan priorities.  - How the project provides unique or innovative opportunities to a specific community.  - A plan to measure success for the project.  - A plan to maintain the project through the years.		25
The proposed project demonstrates community partnerships.  - There is at least one community partner identified.  - All committed partners have submitted a letter of support.		15
The workplan is thorough and complete.  - The workplan contains enough detail to understand the steps needed to complete the project.  - Each project goal clearly identifies activities that will ensure the project is complete.		15
The budget is complete.  - The budget does not contain any unallowable costs, such as personnel.  - The budget identifies outside sources of funding that will support the project, even if those contributions are in-kind.		15
